

# Volunteer Shoreline Monitoring Program

## Volunteer Contributions:

**Photograph the shoreline** at consistent locations during different water levels

**Track and report** conditions at your site

**Improve our understanding** of how the wind and water levels impact the southern shore

## What we'll accomplish:

**Paint a picture** of the wind/wave/shoreline relationship

**Develop a method** for collecting photos and observations which can be used in case of emergency

**Improve our understanding** of how the wind and water levels impact the southern shore

**Educate ourselves and others** and build a better understanding of Lake of the Woods

### **Current Stations for 2016**

We may add sites as we improve the process

### **Reports and photos can be emailed to:**

[staff@lakeofthewoodsswcd.org](mailto:staff@lakeofthewoodsswcd.org)

You can mail your report, take a photo of it and email it—whatever works for you.

**Questions?** 218-634-1842 ext 4

**Feedback is welcome!**
